

Introducing the  
**ATS 503**  
AUTOMATIC TRANSFER SWITCH

## Powering the RV Adventure

The most trusted way to transfer power between shoreline and RV generator switches. Parallax's new ATS 503 is designed to transfer power with ease, regardless of line voltage conditions. The new ATS 503 eliminates the hassle of managing plugs or electrical cords to transfer power.

### FEATURES:

- + Large robust relay coils maintain position during transfer switch operation while Coach is in motion
- + Designed for 120/240VAC 50 amp service
- + Heavy duty galvanized steel chassis
- + Shore/Utility power-default power source
- + Generator/Alternate-"takes command" power source
- + Dimensions: H 4" x W 12" x D 10"  
Weight: 10 LBS

### BENEFITS:

- ✓ Reduced arcing and system voltage dropouts prevent damage to your equipment
- ✓ Heavy duty, high performance contacts
- ✓ Excellent relay and PCB protection against damage
- ✓ LED diagnostic indicators; self-checking
- ✓ Control board is capable of future expansion
- ✓ Easy to install
